Psychologist Responsible for the  
projects

# Requests to the Italian Foundation for the future

- Since 1997, when the foundation was established, up to 100 families have approached the Foundation, 51 during last year, with similar requests and different needs:

# 10 years later....

The foundation has started 3 permanent communities with histories completely different and with only one experimental.

- CASA PRIMULA
- CASA GIRASOLI
- CASA FIORDALISO

# an experimental community for the project: A FUTURE TOWARDS A HOUSE

Since October a new experimental project  
financed by:

- Fondazione UMANA MENTE  
(Fondazione del Gruppo Allianz)
- Fondazione Italiana Verso il Futuro
- AIPD sez. Roma
- Fondazione Handicaps dopo di noi.

# Experimental project

The project looks after 4 groups  
composed by 5 people that alternate:  
One week a month  
2 weeks of 5 days  
2 weeks of 7 days  
Other groups of 5 people alternate 2  
weekends a month

# Individual project

Another 8 persons are followed in individuals projects:

- Strengthening of the autonomies
- Awareness about Person Down
- Identity group
- Gradual approaching towards residentiality

# Couple coexistence

Psychological assessment of  
single/couple.

- Agreement with both families on the mandate with the Foundation
- Currently were included 2 couples, in different groups.

Anyway the life of the couple must be:

- Respect of the rules of the group
- Carry out the daily incombences
- Have daily activities with the group

Is necessary to continue the research and the testing of diversified residential models, able to respond increasingly to different needs of different people
